2. Accounting period, currency used in accounting

The Company's annual accounting period starts on 1 January and ends on 31 December.

Financial statements and accounting transactions are expressed in Vietnamese Dong (VND).

3. Applied accounting standards and accounting system

The Company adopts Vietnamese Corporate Accounting System as guided in Circular No. 200/2014/TT-BTC dated 22/12/2014 and Circular No. 53/2016/TT-BTC dated 21/3/2016 providing amendments and supplements to certain articles of Circular No. 200/2014/TT-BTC promulgated by the Ministry of Finance.

4. Summary of significant accounting policies

4.1 Cash and cash equivalents

Cash includes cash on hand, cash at bank and cash in transit.

All short-term investments which are collectible or mature of 3 months or less as from purchasing date, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value at reporting date shall be recognized as cash equivalents.

(These notes form part of and should be read in conjunction with the accompanying financial statements)

4.2 Financial investments

Investments in associates

An associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the associate but not control or joint control over those policies. An entity is considered as an associate if the Company holds (directly or indirectly) from 20% to under 50% voting shares of the entity.

Investments in associates are recorded at cost less provision. Dividends and profits received in money or non-monetary asset for the period before the investment date shall be recorded as a decrease in value of investment.

Provision

Provision for investments in associates is made if these investments are impaired or the investees suffer losses leading to the irrecoverability of the Company's investments.

With regards to the investees who are required to prepare the consolidated financial statements, the provision is made based on the consolidated financial statements. For other cases, the provision is made based on the financial statements of the investees.

4.3 Receivables

Receivables include trade receivables and other receivables.

- Trade receivables are trade-related amounts arising from trading activities between the Company and its customers;
- Other receivables include non-trade amounts which are not related to trading activities, intracompany transactions.

Receivables are recorded at cost less provision for doubtful debts. Provision for doubtful debts represents the amounts of outstanding receivables at the balance sheet date, which have been overdue for 6 months or which have not been overdue but the debtor is in the state of insolvency, winding up, missing or running away... Provision is made as guided by Circular No. 228/2009/TT-BTC dated 7/12/2009 of the Ministry of Finance.

4.4 Inventories

Inventories are stated at the lower of cost and net realizable value.

Cost of inventories is calculated using the weighted average method and accounted for using the perpetual method with value determined as follows:

- Materials, goods: Cost comprises costs of purchase, costs of conversion and any directly attributable costs of bringing the inventories to their present location and condition;
- Finished products: Cost comprises cost of direct materials and labour plus attributable overhead based on the normal level of activities.

Net realizable value is the estimated selling price less the estimated costs of completing the products and the estimated costs needed for their consumption.

Provision for decline in value of inventories is made for each kind of inventories when the net realizable value of that kind of inventories is less than cost. The provision is made in accordance with Circular No. 228/2009/TT-BTC dated 7/12/2009 by the Ministry of Finance.

NO EX CALL

NOTES TO THE FINANCIAL STATEMENTS (cont'd)

(These notes form part of and should be read in conjunction with the accompanying financial statements)

4.5 Tangible fixed assets

Cost

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of tangible assets comprises their purchase price and all the costs incurred by the Company to acquire those assets as of the time of putting such assets into the ready-for-use state. The costs incurred after the initial recognition of tangible fixed asset shall be recorded as increase in their historical cost if these costs are certain to augment future economic benefits obtained from the use of those assets. Those incurred costs which fail to meet this requirement must be recognized as production and business expenses in the period.

Depreciation

Depreciation of tangible fixed assets is calculated on a straight-line basis over their estimated useful lives. The depreciation period is in conformity with Circular No. 45/2013/TT-BTC dated 25/4/2013 by the Ministry of Finance. Details are as follows:

Kinds of assets	Depreciation period (years)
Buildings, architectures	5 - 20
Machinery, equipment	5 - 10
Motor vehicles	6 - 10
Office equipment	3 - 5

4.6 Intangible fixed assets

Cost

Intangible fixed asset being computer software is stated at cost less accumulated amortization.

The cost of intangible fixed assets comprises all the costs incurred by the Company to acquire those assets as of the time of putting such assets into the ready-for-use state.

Amortization

Amortization of intangible fixed assets is calculated on a straight-line basis over their estimated useful lives. Amortization rate is in conformity with Circular No. 45/2013/TT-BTC dated 25/4/2013 by the Ministry of Finance.

Kind of asset	Amortization period (years)
Computer software	5

4.7 Deferred corporate income tax, deferred corporate income tax expense

Deferred income tax is determined for temporary differences at the balance sheet date between the tax base of assets and liability and their carrying amount for financial reporting purpose. Deferred income tax liabilities are recognized for all temporary differences except temporary differences arising from the initial recognition of an asset or liability in a transaction which, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Deferred income tax liabilities are recognized for all taxable temporary differences while deferred income tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilized. Book values of deferred corporate income tax assets are considered at the balance sheet

(These notes form part of and should be read in conjunction with the accompanying financial statements)

dates and will be reduced to the rates that ensure enough taxable income against which the benefits from a part of or all of the deferred income tax assets can be used. Unrecognized deferred income tax assets are reassessed at each balance sheet date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax is measured at the tax rates that are expected to apply for the year in which the asset is realized or the liability is settled, based on tax rates that have been enacted or substantively enacted at the balance sheet date.

Deferred income tax assets and deferred income tax liabilities are offset if taxable temporary differences and deductible temporary differences relate to the same taxable entity and are finalized with the same taxation authority.

4.8 Prepaid expenses

Prepaid expenses are reported as short-term or long-term prepaid expenses. These are expenditures that have been incurred but related to the operations of many accounting periods. The Company's primary prepayments are as follows:

- Costs of tools and instruments being put into use are amortized in accordance with the straightline method for a period of 3 years or less;
- Other prepaid expenses: the Company selects appropriate method and criteria of allocation over the period in which economic benefits are expected to be received based on the nature and extent of the prepaid expenses.

4.9 Payables

Payables include: trade payables and other payables.

- Trade payables are trade-related amounts, arising from trading activities between the company and its suppliers;
- Other payables are non-trade amounts, which are not related to trading activities, intracompany transactions.

Payables are recognized at cost and reported as short-term or long-term payables based on the remaining terms at the balance sheet date.

Payables are monitored according to their creditors, principal terms, remaining terms and original currencies.

4.10 Loans and finance lease liabilities

Loans and finance lease liabilities are recorded at cost and classified into current and non-current liabilities based on the remaining terms at the balance sheet date.

The Company monitors loans and finance lease liabilities according to their creditors, loan agreements, principal terms, remaining terms and original currencies.

Borrowing costs

Borrowing costs comprise interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing costs are recognized as an expense in the period in which they are incurred, except to the extent that they qualify the conditions to be capitalized in accordance with Accounting Standard "Borrowing costs".

Borrowing costs associated with a particular borrowing for the purpose of obtaining a qualifying asset shall be capitalized as part of the cost of that asset. For general borrowing funds, the

(These notes form part of and should be read in conjunction with the accompanying financial statements)

borrowing costs eligible for capitalization in the period shall be determined according to the capitalization rate, which is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period.

Capitalization of borrowing costs shall be suspended during extended periods in which it suspends active development of a qualifying asset, except to the extent that the suspension is necessary. Capitalization shall be ceased when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.

4.11 Owners' equity

Share capital represents the amount of capital actually contributed by shareholders.

Treasury shares

Treasury shares are the amounts payable to repurchase the shares that the Company has issued and all costs directly related to this repurchase transaction.

Profit distribution

Profit after corporate income tax is appropriated to funds and distributed to shareholders in accordance with the resolution of the General Meeting of Shareholders.

The dividend to be paid to the shareholders shall not exceed the undistributed profit after tax and with consideration of non-monetary items in undistributed post-tax profits that may affect cash flow and ability to pay dividends.

4.12 Recognition of revenue and other income

- Revenue from sales and service provision is recognized to the extent that it is probable to obtain economic benefits, it can be reliably measured and the following conditions are also met:
 - ✓ Revenue from the sale of goods is recognized in the income statement when the significant risks and rewards of ownership have been transferred to the buyer and there are no significant uncertainties regarding recovery of the consideration due or the likely return of goods;
 - Revenue from service provision is recognized when the services have been rendered. In case that the services are to be provided in many accounting periods, the determination of revenue in each period is done on the basis of the service completion rate as of the balance sheet date.
- Revenue from financing activities is recognized when revenue is determined with relative certainty and it is possible to obtain economic benefits from the transactions.
 - ✓ Interest is recognized on the basis of the actual term and interest rates;
 - ✓ Dividends and profits shared are recognized when the Company has the rights to receive dividends or profit from the capital contribution. Stock dividends are not recognized as financial revenue. Dividends received in the period before investment date shall be recorded as a decrease in value of investment.
- Other income is the income derived out of the Company's scope of business and recognized
 when it can be measured reliably and it is probable that the economic benefits associated with
 the transaction will flow to the Company.

(These notes form part of and should be read in conjunction with the accompanying financial statements)

4.13 Cost of goods sold

Cost of products, goods sold and services rendered shall be recognized in the correct accounting period in accordance with the matching principle and conservatism principle.

Costs of inventories and services rendered which are incurred in excess of the ordinary level shall be charged out to cost of goods sold in the period, not to the production cost of goods and services.

4.14 Financial expenses

Financial expenses reflect expenses or losses related to financial investment activities: loan interest and provision for loss from investment in other entities.

4.15 Administrative expenses

Administrative expenses reflect expenses actually incurred related to the overall administration of the Company.

4.16 Current corporate income tax expense, deferred corporate income tax expense

Current income tax is the tax amount computed based on the taxable income in the period at the tax rates ruling at the balance sheet date. The difference between taxable income and accounting profit is due to the adjustments of temporary differences between tax and accounting figures as well as those of non-taxable or non-deductible income and expenses.

4.17 Financial instruments

Initial recognition

Financial assets

A financial asset is recognized initially at cost plus transaction costs directly attributable to the acquisition of the asset. The Company's financial assets comprise cash on hand, short-term deposits, trade receivables and other receivables.

Financial liabilities

A financial liability is recognized initially at cost plus transaction costs directly attributable to the issuance of such liability. The Company's financial liabilities comprise loans, trade payables, accrued expenses and other payables.

Subsequent measurement

Currently, there has been no requirement for subsequent measurement of financial instruments.

4.18 Tax rates and charges payable to the State Budget which the Company applies

- Value-added tax (VAT):
 - ✓ Sale of ready-mixed concrete and construction activities: Subject to a VAT rate of 10%. From 01/01/2024 to 31/12/2024, the Company was eligible for an 8% VAT rate in accordance with Government's Decree No. 94/2023/NĐ-CP.
 - ✓ Other business activities: Subject to the current applicable tax rates as per regulations.
- Corporate income tax (CIT):
 - ✓ For income from the Ready-Mixed Concrete Manufacturing Plant Project (Tam Ky Concrete Plant): Exempt from CIT for the first 2 years, followed by a 50% CIT liability reduction for the next 4 years, starting from the year taxable income is first generated. 2018 was the first year of taxable income generation.

STY JAN DACA LEX UANGE

NOTES TO THE FINANCIAL STATEMENTS (cont'd)

(These notes form part of and should be read in conjunction with the accompanying financial statements)

29. Basic and diluted earnings per share

	Q4 2024	Q4 2023
Accounting profit after tax	2,583,858,526	676,682,224
Adjustments increasing or decreasing profit after tax - <i>Increasing</i>		(8,124,205)
- Decreasing (appropriation to bonus and welfare funds)		8,124,205
Profit or loss attributable to common shareholders	668,558,019	668,558,019
Weighted average common shares outstanding	6,518,547	6,518,547
Basic and diluted earnings per share (*)	396	103

(*) The basic and diluted earnings per share for Q4 2024 are calculated prior to appropriation to the bonus and welfare funds, as the Company's Charter of and the General Meeting of Shareholders do not require such appropriations. Therefore, this figure may be subject to change depending on future resolutions made by the General Meeting of Shareholders.

	Report for Q4 2023 VND	Adjustment for Q4 2023 VND	Adjusted report for Q4 2023 VND
Accounting profit after tax Adjustments increasing or decreasing profit after tax	676,682,224	676,682,224 (8,124,205)	676,682,224 (8,124,205)
- Increasing - Decreasing (appropriation to bonus and welfare funds)*	-	8,124,205	8,124,205
Profit or loss attributable to common shareholders	676,682,224	668,558,019	668,558,019
Weighted average common shares outstanding	6,518,547	6,518,547	6,518,547
Basic and diluted earnings per share	104	103	103

(*) The bonus and welfare funds were adjusted downward by VND 8,124,205 when recalculating the "Basic earnings per share" for Q4 2023. This adjustment was determined based on the ratio of the Q4 2024 profit after tax relative to the 2023 profit after tax, and the bonus and welfare funds appropriated from the 2023 profit after tax (VND 109,636,813), in accordance with the resolution of the 2024 General Meeting of Shareholders.

23. Events after the balance sheet date

There have been no significant events occurring after the balance sheet date which would require adjustments or disclosures to be made in the financial statements.

(These notes form part of and should be read in conjunction with the accompanying financial statements)

31. Corresponding figures

Corresponding figures in the Balance Sheet were taken from the financial statements for the year ended 31/12/2023, which were audited by AAC. Corresponding figures in the Income Statement and the Statement of Cash Flows were taken from the financial statements for the 4th Quarter of 2023, which were prepared by the Company.
