2. Business Sectors and Locations

a. Main Business: Direct support services for waterway transport: Port operations and logistics services (Industry Code: 5222 - Primary).

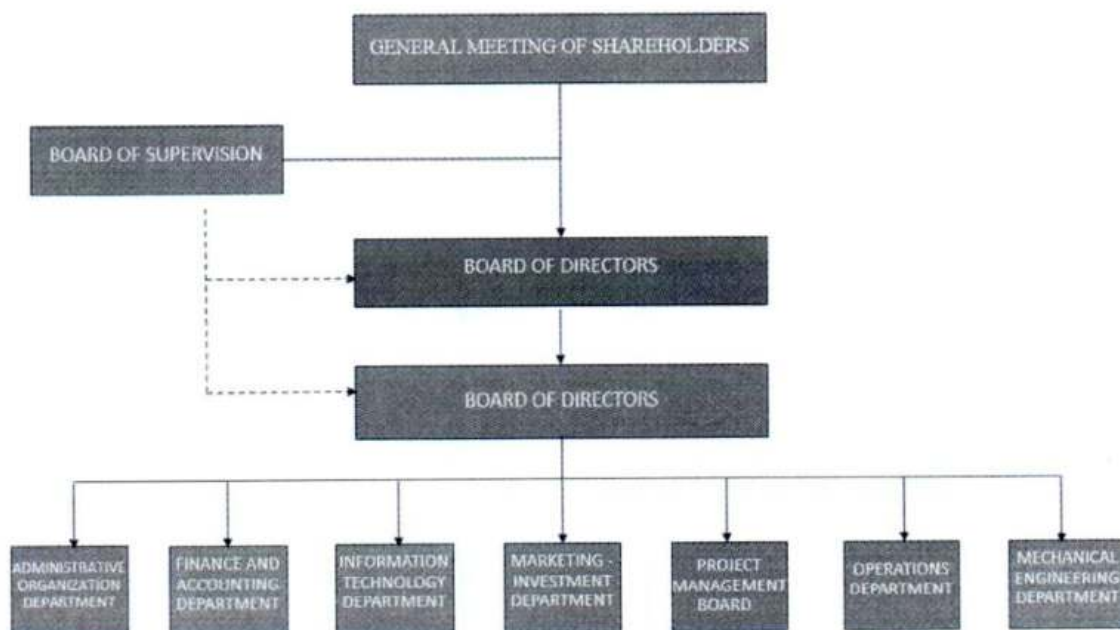

b. Business Location: Dong Nai Province.

3. Corporate Governance and Management Structure

a. Corporate governance model:

General Meeting of Shareholders (GMS), Board of Directors (BOD), Supervisory Board, Executive Management.

b. Management Structure:

c. Subsidiaries and Associated Companies

- Sopewaco High-Tech Concrete Investment Joint Stock Company
- Location: Ong Keo Industrial Zone, Phuoc Khanh, Nhon Trach, Dong Nai.
- Business: Concrete production, pre-stressed piles.
- Charter capital: VND 80,000,000,000.
- PAP's ownership: 10% (VND 8,000,000,000).

4. Development Strategy

a. Major Goals

- Invest in the construction and operation of Phuoc An Port, with the capability to accommodate ships up to 60,000 DWT. The designed capacity includes 2.5 million TEUs per year for container cargo and 6.5 million tons per year for general cargo.

- Develop the Port Logistics Service Area into a regional logistics hub, with a capacity of 2.2 million TEUs per year for container cargo and 4 million tons per year for general cargo. This includes providing warehouse, storage, preservation, packaging, pre-processing, and transportation services to ensure seamless integration with port operations.

b. Medium and Long-Term Development Strategy

Invest in the Phuoc An Port Construction Project and the Phuoc An Port Logistics Service Area Project in phases, based on functional areas that align with market demand and the company's operational reality. This ensures a sustainable balance between investment and business operations.

c. Environmental, Social, and Community Objectives

The company aims for sustainable development, ensuring environmental protection while creating employment opportunities for local and regional workers. Contribute to stabilizing and improving community living standards, fostering economic growth in the region and neighboring areas. Actively participate in local social welfare initiatives during business operations.

5. Risks

During the investment, construction, and operation of the Phuoc An Port Construction Project and the Phuoc An Port Logistics Service Area Project, various risks may arise. However, due to its strategic location in a key economic region, supported by an advanced transportation infrastructure and a steady demand for import-export activities in Dong Nai and surrounding areas, the project benefits from a stable growth rate. Specifically in Dong Nai Province, where economic expansion remains strong, the Phuoc An Port and Logistics Service Area are expected to operate at maximum capacity, effectively eliminating market risks once fully operational.

II. Business Operations in the Year

1. Business Operations Overview

In accordance with the resolutions of the General Meeting of Shareholders (GMS) regarding key objectives for 2024, the company has implemented various initiatives with the following outcomes:

- Increase in Charter Capital to 2,320 Billion VND: The company successfully completed capital increase procedures, approved by the State Securities Commission (SSC) under Document No. 4287/UBCK-QLCB on July 10, 2024. Due to objective reasons, investors subscribed to and purchased 32 million shares instead of the projected 38 million shares. Consequently, the company raised its charter capital from 2,000 billion VND to 2,320 billion VND, officially approved by SSC under Document No. 4692/UBCK-QLCB on July 26, 2024. The Vietnam Securities Depository (VSD) approved changes to the registered securities under Document No. 6461/CNVSDC on August 5, 2024. The Department of Planning and Investment of Dong Nai Province approved the 12th business registration amendment on August 7, 2024 to reflect the increased capital. The Hanoi Stock Exchange (HNX) approved changes in share trading registration in Decision No. 1224/QĐ-SGDHN on December 3, 2024. The additional capital is being managed and utilized in accordance with the capital utilization plan approved by the GMS and the Board of Directors (BOD).

- Project Adjustments:

+ July 3, 2024: The Department of Planning and Investment of Dong Nai Province issued Investment Registration Certificate No. 7530322848 (3rd amendment) for the Phuoc An Port Construction Project, adjusting the investment period from 2017 - 2024 to 2017 - July 2026.

+ November 18, 2024: The Department of Planning and Investment of Dong Nai Province issued Investment Registration Certificate No. 2282061118 (3rd amendment) for the Phuoc An Port Logistics Service Area, adjusting the investment period from 2017 - 2024 to 2017 - July 2026.

- Land Clearance and Compensation:

+ Phuoc An Port Construction Project: Compensation completed, with the People's Committee of Dong Nai Province officially allocating and leasing 157.3 ha of land for project development.

+ Phuoc An Port Logistics Service Area Project: Compensation payments finalized, land lease agreements signed for 496.28 ha out of 550.4 ha, and land use certificates issued for 486.22 ha. The company is working with relevant authorities on remaining land clearance, lease agreements, and land use certification for the outstanding area.

- Construction Progress:

+ Phuoc An Port Construction Project:

✓ The construction of Phase 1 of Phuoc An Port has been fully completed and approved by the Department of Construction Management under Document No.

1913/CQLXD-CCPN (July 17, 2024) and Document No. 3309/CQLXD-CCPN (December 13, 2024). Additionally, the firefighting and rescue systems have been certified by the Fire Protection Department under Document No. 2543/NT-PCCC (August 21, 2024) and Document No. 3509/NT-PCCC (November 25, 2024). The Ministry of Natural Resources and Environment issued an environmental permit for the project under Permit No. 415/GPMT-BNTMT (October 9, 2024). Furthermore, the Vietnam Maritime Administration officially opened Berth 6 on August 23, 2024 (Decision No. 1289/QĐ-CHHVN) and Berth 5 on December 19, 2024 (Decision No. 2334/QĐ-CHHVN). An additional port operation approval was granted on January 21, 2025 (Decision No. 88/QĐ-CHHVN), followed by the official port operation license issued on February 13, 2025 (License No. 07/2025/GCN-CHHVN).

✓ For Phase 2, the Vietnam Maritime Administration has approved the port location and scale under Document No. 4225/CHHVN-KHĐT (September 10, 2024). The Feasibility Study Report was also approved by the Construction Management Department under Document No. 3256/CQLXD-DADT (December 6, 2024). Currently, firefighting design and technical drawings are under review by the relevant authorities for construction approval. The company is actively investing in the remaining phases, ensuring compliance with the granted investment certificate to proceed with the next stages of development.

✓ Phuoc An Port Logistics Service Area: Land leveling completed, ready for infrastructure construction pending final approval from authorities.

- **Equipment Investments:** The company completed the import and installation of 4 STS cranes, 9 RTG cranes, 4 electric vehicles, 16 internal terminal tractors, 2 forklifts, and IT systems, operational software, and office equipment for port operations.

- **Completion of Legal Procedures for Port Operations:** dredging of port waters completed, maritime navigation announcements made, oil spill response plan established, port security measures implemented, fire safety and construction inspections completed, official port opening approvals obtained, environmental compliance certifications secured, etc.

- **Conversion of Logistics Service Area into Industrial Zones:**

+ The Phuoc An Industrial Park Phase 1, covering 330 hectares, was approved by the Prime Minister for inclusion in Dong Nai Province's industrial zone planning under Document No. 111/TTg-CN on January 28, 2021. Furthermore, the land-use function adjustment was approved under Decision No. 862/QĐ-TTg on August 16, 2024. The Dong Nai Provincial People's Committee (PPC) later authorized the development of a functional zoning plan through Document No. 14106/UBND-KTN on December 26, 2023. Currently, the 1/2000-scale zoning plan for Phuoc An Industrial Park Phase 1 has been reviewed and approved by both the Provincial Planning Appraisal Council and the Provincial People's Council, serving as the basis for final approval. Once the Dong Nai PPC formally approves the zoning plan, the company will submit an investment proposal for Phuoc An Industrial Park to obtain official approval from relevant authorities as a foundation for further project development.

+ For the remaining 225 hectares, the Prime Minister approved its development as Phase 2 of Phuoc An Industrial Park under Decision No. 586/QĐ-TTg on July 3, 2024, as part of the Dong Nai Provincial Development Plan (2021-2030, vision to 2050). Currently, the Dong Nai PPC is formulating an adjustment to the Nhon Trach New Urban Area master plan, integrating 225.24 hectares into Nhon Trach District's industrial park planning. Once the master plan adjustment is approved, the company will proceed with investment procedures in compliance with regulatory requirements for industrial park development.

- **Inland Waterway Terminal Planning:** The Dong Nai PPC approved the inclusion of an inland waterway terminal adjacent to the Go Gia River in Phuoc An, Nhon Trach under Document No. 5909/UBND-KTN on June 13, 2023, and Document No. 10662/UBND-KTN on October 12, 2023. Currently, the Dong Nai PPC is preparing an adjustment to the Nhon Trach New Urban Area master plan, incorporating the Phuoc An Inland Waterway Terminal into the revised urban master plan, which will then be submitted to the Prime Minister for final approval. Once the adjusted master plan is approved, the company will initiate the necessary investment procedures to develop the inland waterway terminal in accordance with government regulations.

- **Business Cooperation and Investment:** The company is actively engaging with investors, manufacturers, logistics companies, and shipping lines while also participating in major investment and trade events organized by the People's Committees of Dong Nai, Ho Chi Minh City, and Ba Ria-Vung Tau. These efforts aim to promote the services of Phuoc An Port, attract potential business partners, and expand cooperation opportunities for the utilization of the port's services in the near future.

III. Management Board's Assessment Report

1. Evaluation of Business Performance

The Executive Management Board has closely monitored and directed the implementation of key tasks assigned by the General Meeting of Shareholders (GMS) and the Board of Directors (BOD). These include: increasing charter capital to VND 2,320 billion, extending the investment certificate for the project, completing land clearance and compensation for the remaining area of the Phuoc An Port Logistics Service Area Project, completing the construction of Phase 1, and finalizing legal procedures for its operational launch. Additionally, the management ensured the completion of land leveling for the Logistics Service Area, making it ready for infrastructure development upon approval by relevant authorities. Other completed tasks include dredging the turning basin, constructing the 22KV power line, handling procedures for repurposing the logistics area, planning the inland waterway terminal behind the port, and arranging capital mobilization for project execution.

Although the Executive Management Board has proactively led and directed various departments to execute the tasks assigned by the GSM and BOD, certain delays have occurred due to lengthy approval processes from authorities regarding land compensation and acquisition, local zoning adjustments requiring input from multiple departments, and complex licensing procedures for project operations. These involve multiple regulatory bodies, including environmental, health, border security, customs, and maritime authorities, leading to prolonged timelines and increased effort. Moving forward, the Executive Management Board will further intensify its oversight and directive measures to ensure the timely completion of all assigned tasks.

2. Financial Performance *(Details provided in the audited 2024 financial report attached).*

3. Organizational, Policy, and Management Improvements

In 2024, the company optimized its organizational structure, appointed additional management personnel, and restructured human resources to improve operational efficiency.

4. Future Development Plans

- Planning for capital increase/funding approval to ensure adequate financing for project execution.
- Finalizing land compensation, lease agreements, and land use certificates for the remaining area of the Phuoc An Port Logistics Service Area Project, while ensuring land integrity and protection.
- Completing Phase 1 adjustments to synchronize with the BOT access road for optimized connectivity and investment efficiency.
- Adjusting the investment timeline for Phuoc An Port in alignment with Vietnam's national seaport development master plan (2021-2030, vision to 2050) approved by the Prime Minister.

- Aligning the logistics service area investment timeline with Nhon Trach and Dong Nai's revised urban planning, pending Prime Minister approval.

- Advancing investment in the Logistics Service Area and Phuoc An Industrial Park, catering to market demand and attracting investment partnerships.

5. Management's Response to Audit Opinions: None.

6. Corporate Social and Environmental Responsibility Report. The company remains fully committed to complying with environmental protection regulations, as approved by the Ministry of Natural Resources and Environment, during all phases of project execution.

IV. Board of Directors' Evaluation of the Company's Operations

1. Board of Directors' Assessment of Business Activities

In 2024, the Board of Directors (BOD) fulfilled its duties in accordance with the company's charter and governance regulations. The BOD closely monitored operations and directed the executive team to implement the key objectives outlined by the General Meeting of Shareholders (GMS). Additionally, the company maintained strict compliance with environmental regulations approved by the Ministry of Natural Resources and Environment throughout project execution.

2. Board of Directors' Evaluation of the Executive Management

In 2024, the Executive Management strictly adhered to the company's internal rules, governance policies, and legal regulations. They also followed all resolutions from the General Meeting of Shareholders (GMS) and the Board of Directors (BOD). Each member of the executive team effectively fulfilled their assigned roles and responsibilities.

3. Board of Directors' Strategic Plans and Directions

The Board of Directors will continue to oversee and manage company operations in line with the charter, resolutions of the GMS, internal governance policies, and legal requirements, and monitor the efficient utilization of investment capital, ensuring it is used effectively and as planned.

REPORT OF MANAGEMENT

Management of Petro Vietnam Phuoc An Port Investment & Operation Joint Stock Company ("the Company") is pleased to present this report and the financial statements of the Company for the year ended 31 December 2024.

MANAGEMENT'S RESPONSIBILITY IN RESPECT OF THE FINANCIAL STATEMENTS

Management is responsible for the financial statements of each financial year which give a true and fair view of the financial position of the Company, and of the results of its operations and its cash flows for the year. In preparing those financial statements, management is required to:

- ▶ select suitable accounting policies and then apply them consistently;
- ▶ make judgements and estimates that are reasonable and prudent;
- ▶ state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- ▶ prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue its business.

Management is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the financial position of the Company and to ensure that the accounting records comply with the applied accounting system. It is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Management confirmed that it has complied with the above requirements in preparing the accompanying financial statements.

STATEMENT BY MANAGEMENT

Management does hereby state that the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 December 2024, and the income statement and the cash flow statement for the year then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to preparation and presentation of the financial statements.

INDEPENDENT AUDITORS' REPORT

**To: The Shareholders of Petro Vietnam Phuoc An Port Investment & Operation
Joint Stock Company**

We have audited the accompanying financial statements of Petro Vietnam Phuoc An Port Investment & Operation Joint Stock Company ("the Company"), as prepared on 14 March 2025, and set out on pages 5 to 30, which comprise the balance sheet as at 31 December 2024, and the income statement and the cash flow statement for the year then ended and the notes thereto.

Management's responsibility

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to preparation and presentation of the financial statements, and for such internal control as management determines is necessary to enable the preparation and presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view, in all material respects, of the financial position of the Company as at 31 December 2024, and of the results of its operations and its cash flows for the year then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to preparation and presentation of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 December 2024 and for the year then ended

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 *Cash and cash equivalents*

Cash and cash equivalents comprise cash on hand and cash in banks and short-term, highly liquid investments with an original maturity of not more than three months that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value.

3.2 *Receivables*

Receivables are presented in the financial statements at the carrying amounts due from customers and other debtors, after provision for doubtful debts.

The provision for doubtful debts represents outstanding receivables at the balance sheet date which are doubtful of being recovered. Increases or decreases to the provision balance are recorded as general and administrative expenses in the income statement. When bad debts are determined as unrecoverable and accountant writes off those bad debts, the difference between the provision for doubtful receivables previously made and historical cost of receivables is included in the income statement.

3.3 *Inventories*

Inventories are measured at historical cost comprising cost of purchase and cost of conversion (including raw materials, direct labor cost, other directly related cost and manufacturing general overheads allocated based on the normal operating capacity) incurred in bringing the inventories to their present location and condition.

Inventories are stated at the lower of cost and net realizable value ("NRV").

NRV represents the estimated selling price in the ordinary course of business less the estimated costs to complete and the estimated costs necessary to make the sale.

The perpetual method is used to record inventories, which are valued as follows:

Raw materials - cost of purchase on a weighted average basis.

Provision for obsolete inventories

An inventory provision is created for the estimated loss arising due to the impairment of value (through diminution, damage, obsolescence, etc.) of raw materials, finished goods, and other inventories owned by the Company, based on appropriate evidence of impairment available at the balance sheet date.

Increases or decreases to the provision balance are recorded into the cost of goods sold account in the income statement. When inventories become expired, obsolete, damaged or become useless, the difference between the provision previously made and the historical cost of inventories is included in the income statement.

3.4 *Tangible fixed assets*

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of a tangible fixed asset comprises its purchase price and any directly attributable costs of bringing the tangible fixed asset to working condition for its intended use.

Expenditures for additions, improvements and renewals are added to the carrying amount of the assets and expenditures for maintenance and repairs are charged to the income statement as incurred.

When tangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the income statement.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 December 2024 and for the year then ended

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.5 Intangible fixed assets

Intangible fixed assets are stated at cost less accumulated amortisation.

The cost of an intangible fixed asset comprises its purchase price and any directly attributable costs of preparing the intangible fixed asset for its intended use.

Expenditures for additions and improvements are added to the carrying amount of the assets and other expenditures are charged to the income statement as incurred.

When intangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the income statement.

3.6 Depreciation and amortisation

Depreciation of tangible fixed assets and amortisation of intangible fixed assets are calculated on a straight-line basis over the estimated useful life of each asset as follows:

Buildings and structures	10-25 years
Means of transportation	3 - 15 years
Office equipment	3 years
Computer software	3 years

3.7 Borrowing costs

Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds

Borrowing costs are recorded as expense during the year in which they are incurred, except to the extent that they are capitalised as explained in the following paragraph.

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily take a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset.

3.8 Construction in progress

Construction in progress represents tangible fixed assets under construction and is stated at cost. This includes costs of site clearance and compensation, construction, project development and other direct costs.

3.9 Prepaid expenses

Prepaid expenses are reported either as short-term or long-term prepaid expenses in the balance sheet and amortised over the period for which the amounts are paid or the period in which economic benefits are generated in relation to these expenses.

3.10 Investment in other entity

Investment in other entity is stated at acquisition cost.

Provision for diminution in value of investment

Provision for investment is made when there are reliable evidences of the diminution its value at the balance sheet date.

Increases and decreases to the provision balance are recorded as finance expense in the income statement.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 December 2024 and for the year then ended

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.11 Payables and accruals

Payables and accruals are recognised for amounts to be paid in the future for goods and services received, whether or not billed to the Company.

3.12 Foreign currency transactions

Transactions in currencies other than the Company's reporting currency of VND are recorded at the actual exchange rates at transaction dates, determined as follows:

- Transactions resulting in receivables are recorded at the buying exchange rate of the commercial bank designated for collection; and
- Transactions resulting in liabilities are recorded at the selling exchange rate of the commercial bank designated for payment.

At the end of the period, monetary balances denominated in foreign currencies are translated at the actual exchange rates at the balance sheet date, determined as follows:

- Monetary assets are translated at the buying exchange rate of the commercial bank where the Company conducts transactions regularly; and
- Monetary liabilities are translated at the selling exchange rate of the commercial bank where the Company conducts transactions regularly.

All foreign exchange differences incurred are taken to the income statement.

3.13 Appropriation of net profits

Net profit after tax is available for appropriation to shareholders after approval in the Annual General Meeting, and after making appropriation to reserve funds in accordance with the Company's Charter and Vietnam's regulatory requirement.

The Company maintains the following reserve funds which are appropriated from the Company's net profit as proposed by the Board of Directors and subject to approval by shareholders at the Annual General Meeting.

Investment and development fund

This fund is set aside for use in the Company's expansion of its operation or in-depth investment.

Bonus and welfare fund

This fund is set aside for the purpose of pecuniary rewarding and encouraging, common benefits and improvement of the employees' benefits, and presented as a liability on the balance sheet.

3.14 Earnings per share

Basic earnings (loss) per share amounts are calculated by dividing net profit (loss) after tax for the period attributable to ordinary shareholders of the Company (after adjusting for the bonus and welfare fund) by the weighted average number of ordinary shares outstanding during the period.

Diluted earnings per share amounts are calculated by dividing the net profit (loss) after tax attributable to ordinary equity holders of the Company (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the period plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 December 2024 and for the year then ended

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.15 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, excluding trade discount, rebate and sales return. The following specific recognition criteria must also be met before revenue is recognised:

Rendering of services

Revenue is recognised as the service is completed.

Interest

Revenue is recognised as the interest accrues (taking into account the effective yield on the asset) unless collectability is in doubt.

3.16 Taxation

Current income tax

Current income tax assets and liabilities for the current years are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted as at the balance sheet date.

Current income tax is charged or credited to the income statement, except when it relates to items recognised directly to equity, in which case the current income tax is also dealt with in equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for the Company to offset current tax assets against current tax liabilities and when the Company intends to settle its current tax assets and liabilities on a net basis.

Deferred tax

Deferred tax is provided using the balance sheet liability method on temporary differences at the balance sheet date between the tax base of assets and liabilities and their carrying amount for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except where the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which at the time of the transaction affects neither the accounting profit nor taxable profit or loss.

NOTES TO THE FINANCIAL STATEMENTS (continued)
as at 31 December 2024 and for the year then ended

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.16 Taxation (continued)

Deferred tax (continued)

Deferred tax assets are recognized for all deductible temporary differences, carried forward unused tax credit and unused tax losses, to the extent that it is probable that taxable profits will be available against which deductible temporary differences, carried forward unused tax credit and unused tax losses can be utilized, except where the deferred tax asset in respect of deductible temporary difference which arises from the initial recognition of an asset or liability which at the time of the related transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Previously unrecognised deferred tax assets are re-assessed at each balance sheet date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled based on tax rates and tax laws that have been enacted at the balance sheet date.

Deferred tax is charged or credited to the income statement, except when it relates to items recognised directly to equity, in which case the deferred tax is also dealt with in the equity account.

Deferred tax assets and liabilities are offset when there is a legally enforceable right for the Company to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority on either the same taxable entity or when the Company intends to either settle current tax liabilities and assets on a net basis or to realize the assets and to settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

3.17 Related parties

Parties are considered to be related parties of the Company if one party has the ability to, directly or indirectly, control the other party or exercise significant influence over the other party in making financial and operating decisions, or when the Company and other party are under common control or under common significant influence. Related parties can be enterprise or individual, including close members of their families.

22.2 Tax loss

The tax loss of the Company for the year differs from the loss as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or deductible.

22.3 Tax losses carried forward

The Company is entitled to carry each individual tax loss forward to offset against taxable profits arising within 5 (five) consecutive years subsequent to the year in which the loss was incurred. As at 31 December 2024, the Company has accumulated tax losses of VND 25,973,992,786 (31 December 2023: VND 18,978,036,317) available for offset against future taxable profits. Details are as follows:

			VND	VND
Originating year	Can be utilized up to	Tax loss amount	Utilized up to 31 December 2024	Unutilized at 31 December 2024
2021	2026	1,379,464,280	-	1,379,464,280
